"HOME!"

Said a man, as he dropped in a chair, after a hard day. Rest—comfort—and happy.
The cost of owning a home may amount to considerable, but this is over-balanced by the joy of living in a home of your own. Money to loan to home owners or those who are buying, building or improving a home.

One important difference between Devoe Lead-and-Zinc Paint and ordinary hand-mixed or ready mixed paints is a difference you will first notice in your pocketbook.

Where a given job will require, say, 15 gallons of ordinary paint, the work can often be well done with 10 gallons of Devoe; that's about the proportion usually.

The best of it is, fewer gallons make a better job of it; lasts longer, costs less, first and last. Whatever painting you pay for have it Devoe; be sure. Do you want our book about painting?

Homes of Individuality

A DOUBLE BUNGALOW, DESIGN NO. D-1341

The above illustration depicts an interesting example of a double bungalow. Below is suggested a floor plan in keeping with this attractive elevation. The various rooms have been so located as to secure the most desirable arrangement, and waste as little room as possible in useless hall space.

The living room occupies the front and has an inviting fireplace laid up in brick. A roomy closet is also provided, convenient for outdoor wraps. Adjoining through a wide-cased opening is a cheerful dining room, with a corner china cabinet, lighted by mullion windows from the side. A door opens to the hall, connecting with bedrooms and bath, and another to the pantry, which in turn connects with a well equipped kitchen. This room and the pantry are lighted by a large skylight provided with an automatic ventilator, and glass adjustable sides to insure light and air. A desirable feature is the side entry combining inside and outside cellar way, and so doing away with a troublesome cellar hatchway.

The bedrooms are quite generous in size and are supplied with ample closet room, in addition to which there are two closets in the hall.

If it were desired to build this as a single detached bungalow, the central gable should be omitted, and the extending roof feature carried across the entire front. The porch could then be extended in like manner and the approach located in the center. This arrangement would allow for side windows, thus doing away with the necessity of skylight over kitchen and pantry. Exclusive of heating, plumbing, electric work, and decorations, this bungalow single is estimated to cost \$2,350, double \$4,300. Plans and specifications \$20.
